Welcome

Welcome to our **Brand Guidelines**.

This document introduces the NBIC brand logo and outlines guidelines on how it should be applied by team members and external users. It also advises on how elements can be recreated consistently using the brand identity and supporting elements.

Please be aware that this guide is an evolving document. It will be regularly updated with additions from the Communications Team and will be expanded as the brand evolves – as soon as they become available. It will also reflect key feedback from its users.

If you need further guidance, please see the contact details at the end of this guide.

Thank you.

1.0 Logotype Master Brand

One of the cornerstones of a strong brand identity is the logo. We want everyone who engages with NBIC to recognise the business, know who we are and connect with our values.

With this in mind, it is vital that we always use our logotype in a consistent manner and adopt behaviours that support it.

In the following pages we refer to the NBIC logo as the logotype.
1.0 Logotype

1.1 Logotype Master Brand (Portrait Orientation)

This is the NBIC logotype in the portrait orientation and is used in the primary colour against a white background.

These guidelines have been developed to offer guidance and support for working with the identity for NBIC.

Our brand informs the way our services communicate and engage with our audience.

Consistent and correct use of our identity is essential across all communications.

The portrait orientation of the logo can be used where best appropriate to fit the space.

When using the logo for large format and print use the .eps file type should be applied. For digital use, such as on the website, the .jpeg or .png file type should be used.
1.2 Approved Logo Colour Variants

The following NBIC logo colour options have been approved. The master logo must not appear in any other colour variation or format to those shown here.

1.0 Logotype

The following NBIC logo colour options have been approved. The master logo must not appear in any other colour variation or format to those shown here.
1.3 Logotype Master Brand (Landscape Orientation)

This is the NBIC logotype in the landscape orientation and is used in the primary colour against a white background.

These guidelines have been developed to offer guidance and support for working with the identity for NBIC.

Our brand informs the way our services communicate and engage with our audience.

Consistent and correct use of our identity is essential across all communications.

The landscape orientation of the logo can be used where best appropriate to fit the space.

When using the logo for large format and print use the .eps file type should be applied. For digital use, such as on the website, the .jpeg or .png file type should be used.
1.4 Approved Logo Colour Variants

The following NBIC logo colour options have been approved. The master logo must not appear in any other colour variation or format to those shown here.
1.5 Logo Icon and Approved Colour Variations

This is the NBIC logo icon.

The following NBIC logo icon colour options have been approved. The logo icons must not appear in any other colour variation or format to those shown here.

The icon logo can be used in instances where the master logo has already previously appeared to instil brand recognition.

The icon logo can also be used for very small areas such as website favicons and social media profiles.
1.6 Exclusion Zones, Optimum and Minimum Size

The NBIC brand must be communicated through consistent implementation. This is paramount to continuing to build and protect the NBIC brand.

The exclusion zone is the same height of the letter ‘N’ in the logotype, as featured here. These exclusion zones must be adhered to at all times. It is imperative that any elements do not encroach upon these areas, which would compromise the presence and clarity of the brand.

In addition, to protect the legibility of the logotype, it must not be used on printed or digital media smaller than 40mm wide for the landscape orientation and 30mm wide for the vertical orientation.
1.7 Alignment with Partner Logos

There will be instances when the logotype will need to align with partner logos. This can be done centrally or vertically.

The exclusion zone is the same height of the letter ‘N’ in the logotype, as featured here. The exclusion zone must be applied on every side.

The logotype must always be placed to the left when aligned with partner logos when featured on NBIC literature.
1.7 Alignment with Partner Logos

There will be instances when the logotype will need to align with partner logos. This can be done centrally or vertically. The exclusion zone is the same height of the letter ‘N’ in the logotype, as featured here. The exclusion zone must be applied on every side. The logotype must always be placed to the left when aligned with partner logos when featured on NBIC literature.
1.8 Priority Alignment with Partner Logos

There will be instances when the logotype will need to align with partner logos.

If the NBIC logotype is required to have priority over partner logos, it is preferred that the partner logos are displayed in greyscale to create a consistent appearance. As a result, this gives a precedence to the NBIC logo.

The exclusion zone is the same height of the letter ‘N’ in the logotype, as featured here. The exclusion zone must be applied on every side.
1.9 Logotype Misuse

The logo must not be distorted or rotated in any way. The colour palette must not be altered and the background choice must always be carefully considered.

🚫 PLEASE DO NOT
1. Skew or warp
2. Distort either horizontally or vertically
3. Rotate in any way – always use the logotype horizontally
4. Alter the colours in any way
5. Place on a cluttered photographic background
6. Apply a drop shadow
7. Add an underline
8. Apply an outline
1.10 Positioning of the Logotype

On printed items such as brochure covers and exhibition material, it is preferable that the NBIC logo is placed top left of the piece.

If this is not achievable, it can be placed using one of the examples featured here – a standard ‘A’ size printed size and a square composition.

The logo must never be placed centrally within the working space.
2.0 Typography

Typography plays an important role in building a strong and consistent brand.

Used properly, type unifies the look of all our communications. This section features primary and secondary typefaces; their variations and their rules and guidance for usage.
2.1 Primary Typefaces

There are two groups of typefaces for use on all of the NBIC brand communications – the primary and secondary typefaces.

The NBIC primary typeface is Open Sans. This can be used for headlines, subheadings, body copy, captions and call to actions.

OPEN SANS LIGHT
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@£$%^&*()_+[];'",./

OPEN SANS REGULAR
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@£$%^&*()_+[];'",./

OPEN SANS SEMIBOLD
ABCDEFGHIJKLMNOPQRSTUVWXYZ
ABCDEFGHIJKLMNOPQRSTUVWXYZ
1234567890!@£$%^&*()_+[];'",./

PLEASE NOTE: THERE ARE LOTS OF DIFFERENT FONT COMPANIES PRODUCING VARIATIONS OF TYPEFACES. THESE MAY HAVE THE SAME NAME BUT LOOK VERY DIFFERENT. PLEASE CONTACT US USING THE DETAILS AT THE BACK OF THIS GUIDE IF YOU REQUIRE ASSISTANCE.

To download Open Sans, please visit: fonts.google.com/specimen/Open+Sans
2.1 Primary Typefaces

There are two groups of typefaces for use on all of the NBIC brand communications – the primary and secondary typefaces.

The NBIC primary typeface is Open Sans. This can be used for headlines, subheadings, body copy, captions and call to actions.

**OPEN SANS BOLD**

```
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@£$%^&*()_+[];'",./
```

**OPEN SANS EXTRABOLD**

```
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@£$%^&*()_+[];'",./
```

Please note: there are lots of different font companies producing variations of typefaces. These may have the same name but look very different. Please contact us using the details at the back of this guide if you require assistance.

To download Open Sans, please visit: [fonts.google.com/specimen/Open+Sans]
2.2 Secondary Typefaces

The NBIC secondary typeface is Trebuchet. Trebuchet is an easy-to-read typeface that is readily available on all computer formats as a default font.

The Trebuchet family of fonts can only be used in literature when the Open Sans font family is unavailable.

Trebuchet Regular

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!£$%^&*()-[]\;'",./

Trebuchet Bold

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!£$%^&*()-[]\;'",./

PLEASE NOTE: THERE ARE LOTS OF DIFFERENT FONT COMPANIES PRODUCING VARIATIONS OF TYPEFACES. THESE MAY HAVE THE SAME NAME BUT LOOK VERY DIFFERENT. PLEASE CONTACT US USING THE DETAILS AT THE BACK OF THIS GUIDE IF YOU REQUIRE ASSISTANCE.
3.0 Colour Palettes

This section illustrates the NBIC primary and secondary colour palettes and their guidelines for usage.

Please note that colours will vary on different screens, projectors and printed materials. This is due to the quality and configuration of screens and printers, and their ability to accurately reproduce the exact colour. Variations are not caused by the colour specifications.

Please contact us if any assistance is required.
3.1 Primary Colour Palette

There are five primary colours for NBIC which are used on all communications.

To support the primary colour palette, gradients may be used and it is proposed these are limited as shown here, to provide a strong structure across the colour application.
3.2 Secondary Colour Palette

A secondary colour palette is available to supplement the primary colours.

These are to be used in a minimal way to add a pop of colour to a piece of branding.

The secondary colour palette can be used for the brand elements as shown in section 5.0 of this document.

These colours should not be used as solid background colours or in large areas.

4.0 Brand Elements

Brand elements contribute to the identity and brand recognition of NBIC.

Brand elements contribute to the identity and brand recognition of NBIC, providing peripheral material that carries themes across a wide range of different mediums. They become synonymous with the logo, with their presence adding to the suite in subtle ways, ensuring the brand is always well represented.
4.1 Brand Elements

Brand elements are used to enhance the brand identity.

The brand elements can feature gradients of the primary or secondary colour palettes, displaying them throughout the suite of designs.

By using them in subdued ways that aren't at the front and centre of all pieces, they work to familiarise audiences with the wider palette. They are flexible by nature, and can also be used in white.
4.2 Brand Elements Exclusion Zones

The NBIC brand must be communicated through consistent implementation. This is paramount to continuing to build and protect the NBIC brand.

These exclusion zones must be adhered to at all times. It is imperative that any elements do not encroach upon these areas, which would compromise the presence and clarity of the brand.

This example element displays a 40px exclusion zone based on a graphic size of 585px x 300px. The exclusion zone must be increased or decreased proportionally to the size of the graphic being used.
The NBIC brand must be communicated through consistent implementation. This is paramount to continuing to build and protect the NBIC brand.

These exclusion zones must be adhered to at all times. It is imperative that any other elements do not encroach upon these areas, which would compromise the presence and clarity of the brand.

These example elements display a 20px exclusion zone based on their displayed graphic size. The exclusion zone must be increased or decreased proportionally to the size of the graphic being used.
4.3 Brand Elements Misuse

The brand elements must not be distorted in any way. The colour palette must not be altered and the background choice must always be carefully considered.

⚠️ PLEASE DO NOT
1. Skew or warp
2. Distort either horizontally or vertically
3. Alter the colours in any way
4. Place on a cluttered photographic background
5. Apply a drop shadow
6. Apply an outline
4.4 Positioning of the Brand Elements

When using the brand elements it is required that the graphics are positioned to bleed off the edge of the working space to create a dynamic composition.

The brand elements must never be placed centrally within the working space.

If using multiple brand elements, the graphics must never overlap one another, unless the opacity of one of the elements is 25% or below.

As demonstrated above, it is required that the edges of the brand elements bleed off the artwork area.
5.0 Brand Application

Samples of brand application are shown in this section. This consists of marketing material that has been produced to date.

- Business Cards
- A5 Flyer
- Annual Report
- Scientific Poster
- Powerpoint
5.1 Business Cards

The NBIC Business Card (85 x 55mm) layout is displayed here.

To be printed with soft-touch laminate applied to both sides.

Research Expertise and Team
Biofilms have a tremendous impact on us. It is estimated that 10% of industrial losses are due to biofilms. They contribute to 65% of all infections, and are the main cause of resistance to antibiotics.

- They contribute to 65% of all infections, and are the main cause of resistance to antibiotics.
- They are responsible for 10% of industrial losses.
- They contribute to 65% of all infections, and are the main cause of resistance to antibiotics.

Oportunities and Applications
- Translation of new discoveries in biofilm science provides opportunities for companies to develop new products.
- The exploration and testing of new products provide opportunities for companies to develop new products.
- The exploration and testing of new products provide opportunities for companies to develop new products.

NBIC aims to:
• Bring together businesses and academic partners to develop new products and services.
• Provide opportunities for company growth by fostering new technologies and products.
• Provide opportunities for company growth by fostering new technologies and products.

The National Biofilms Innovation Centre exists to create a fusion of world-class interdisciplinary research and industry partnerships to deliver breakthrough science and technologies to control and exploit biofilms.

Biofilms are amongst our most important global challenges – from antimicrobial resistance and food safety to water security – and deliver significant economic, social and environmental impacts. NBIC was launched in 2017 to address these challenges and patient needs, and bring together the best of UK research and businesses to drive the commercialisation of biofilm research into innovation and marketable products.

NBIC's vision is to create a truly pioneering national centre, bringing together the original four host institutions (Southampton, Nottingham, Cambridge and Durham) and a partnership that has now expanded to include five associate research institutions. This support from a growing list of national and international funders and industry partners is a testament to the importance of the work of the Centre.

The Centre supports the development of new biofilm solutions through research and innovation. From understanding the basic biology of biofilms, to developing a pipeline of novel technologies to prevent, control or exploit biofilms, the Centre provides a unique capability.

The Centre hosts over 130 industry partners and has received funding from the UK government and industry, as well as from the European Union. This funding supports the development of new biofilm solutions through research and innovation.

The Centre is led by an independent, world-renowned biofilm expert, who is committed to ensuring that the Centre delivers innovation and collaboration that will allow us to lead a world stage with the understanding and exploitation of biofilm research.
5.4 Scientific Poster

The NBIC Scientific Poster (841 x 1189mm) layout is displayed here.

It is to be used as a Template in PowerPoint for ease-of-use for third parties.

5.5 Powerpoint Template (cont.)

The NBIC Powerpoint Template layout is displayed here.

It is to be set up using the widescreen (16:9) page size.

This is a dividing slide that is not to be used as a layout for anything other than partitioning the presentation into the sections outlined on the agenda slide.

An image slide is also available in the master template for use.

Our vision
SUPPORT WORLD CLASS RESEARCH, INNOVATE AND TRAIN THE FUTURE GENERATION OF SCIENTIFIC LEADERS

The National Biofilms Innovation Centre will create a fusion of world-class interdisciplinary research and industry partnerships to deliver breakthrough science and technologies to control and exploit biofilms.

By combining our talent, we will grow the next generation of research leaders and entrepreneurs delivering growth and wealth creation to the UK and beyond.

Title to be Open Sans Regular, 26pt text on auto leading in White.

Subhead text to be Open Sans Regular, 17pt text on auto leading in NBIC Deep.

Body text to be Open Sans Regular, 16pt text on auto leading in White.

Presentation footer text to be Open Sans Regular, 10pt text on auto leading in White.

Image aligned to the left of the slide. Image to be 19cm x 12cm.

Background to be White

Brand Element in Pool/White.

The dividing slide title should match the titles outlined on the agenda. Title to be Open Sans Light, 44pt text on auto leading in NBIC Deep.

Image slide to have an image aligned to the right of the slide. Image to be 19.05cm x 12.77cm.
6.0 Iconography

A series of iconography has been designed and produced for use across all types of media.

The core of the illustrative style is outlines, within a circle to mirror other elements of the NBIC branding. The icons are designed to be informative, modern and easy-to-read in printed and digital formats.
6.1 Icon Suite

The icons must be used in accordance with the captions which are featured here for usage reference.

All future icon work which is produced must use these designs for style guide.

Please contact us for any assistance if required.
